Department of Economics

BA Economics: Program Outcomes (POs)

Critical Thinking	Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.
Effective Communication	Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology
Social Interaction	Elicit views of others, mediate disagreements and help reach conclusions in group settings.
Effective Citizenship	Demonstrate empathetic social concern and equity centered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.
Environment and Sustainability	Understand the issues of environmental contexts and sustainable development
Self-directed and Life-long Learning	Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.
Ethics	Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

BA Economics: Program Specific Outcomes (PSOs)

Knowledge of Economic System	An ability to understand economic theories and functioning of basic microeconomic and macroeconomic systems.
Statistical and Mathematical Skills	Acquaint with collection, organization, tabulation and analysis of empirical data. Ability to use basic mathematical and statistical tools to solve real economic problems.
Econometric Applications	Acquaint with basic and applied econometric tools and methods used in economics. The aim of this course is to provide a foundation in applied econometric analysis and develop skills required for empirical research in economics. It also covers statistical concepts of hypothesis testing, estimation and diagnostic testing of simple and multiple regression models.
Development Perspectives	Delineate the developmental policies designed for developed and developing economics. The course also acquaint with the measurement of development with the help of theories along with the conceptual issues of poverty and inequalities.
Perspectives on Indian Economy	Acquaint with basic issues of Indian economy and learn the basic concept of monetary analysis and financial marketing in Indian financial markets. This course reviews major trends in economic indicators and policy debates in India in the post-Independence period.
