	7. Syllabus completed within given time	18.2

On the basis of feedback received from the UG & PG students regarding the syllabus, the responses have been quite satisfactory as the trend goes above 80%. Students responded positively and feel satisfied with the syllabus related issues. A few suggestions appear such as- **teacher should use multiple references for teaching any topic** during class. Similarly, **current topic should be added in syllabus**. Syllabus is **completed within a given Framework** so they will get maximum opportunity for revision. Student should be allowed to give suggestion for modification of the subject.

During the staff meeting, the responses and percentage are discussed and decided that due measures should be taken regarding the issues raised by students.

**Action taken**

Based on the suggestions received from students' feedback, the college authority has given the instruction to the subject teacher to orient students about syllabus details and the UGC and Parent University policies. Also to **provide lesson plan in the beginning of the session**. Provide the list of purchase of reference books in the beginning of the session and recommend students to use the library.
